SUMMARY

Dynamic CRM Software Developer with over 2.10+ years of experience in leveraging JavaScript and TypeScript to enhance Dynamics 365 functionality, achieving a 25% reduction in manual effort through advanced workflows and plugins. Demonstrated proficiency in Form Scripting, Ribbon customization, and WEB API integration, Power Automate Flow, delivering a 20% improvement in productivity.

WORK EXPERIENCE

Inogic Tech (India) Private Limited,
Microsoft Dynamics 365 CRM Developer

09/2023 – Present | Navi Mumbai

- **Marketing4Dynamics - Mailchimp Integration:** Developed Dynamics 365 CE customizations using **C# Plugins, Workflows, CRM Dashboard, JavaScript/TypeScript, PCF Controls, Ribbon Customizations, and Power Automate Flows. Integrated Mailchimp** REST APIs for bidirectional sync, campaign tracking, and subscriber management within CRM. Performed Dataverse **Web API** operations, **debugging**, and **performance** optimization.
- **Click2Export:** Implemented CRM export automation using **C# Plugins, Custom Actions, SSRS Reports, Word/Excel Templates, HTML/CSS/JavaScript, and Power Automate.** Developed secure **Azure-authorized integrations** enabling one-click export of **CRM reports**, views, and charts to PDF, Excel, and Word formats.
- **Alert4Dynamics:** Configured real-time CRM alert systems using **C# Plugins, Workflows, CRM Customizations** and PCF Controls for **pop-up, form, and email notifications.** Enhanced cross-team SLA communication and improved operational visibility within Dynamics 365 CRM.
- **User Adoption Monitor (UAM):** Developed CRM activity monitoring solutions using **Power Apps, Power BI, CRM Audit, Customizations, C# Plugins, and Workflows.** Built **dashboards** for tracking daily, weekly, and monthly **user engagement** and **adoption** metrics.
- **InoLink- QuickBooks Integration:** Built **REST API-based QuickBooks integration** with Dynamics 365 CRM using **C# Plugins, Azure App Registrations, Power Automate, and Dataverse customizations.** Automated real-time synchronization of invoices, payments, and customer records.
- **Gamifc365:** Developed Dynamics 365 CRM gamification solutions using **C# Plugins, Workflows, Custom Actions, Custom APIs, Canvas Apps, React-based PCF Controls, and Power Automate.** Configured leaderboards, badges, reward workflows, and automated scoring mechanisms to improve user engagement and CRM.
- **IPSD (Inogic Professional Service Developer)** specializing in Microsoft Dynamics 365 CE and **Power Platform** solutions, including requirement analysis, CRM customizations, **integrations, automation, Copilot agent**, and client engagement for **Sales, Customer Service, and Marketing** modules.

EDUCATION

IES College of Technology, India

06/2019 – 05/2023

B. Tech in Computer science & Engineer, (CGPA: 8.34)

Final Year Project – Sonata Music Academy CRM (Freelance)

- Built a **React-based custom CRM platform** for Sonata Music Academy to manage Admin, Teacher, and Student operations, improving operational **efficiency by 35%** and reducing manual coordination **efforts by 40%.**
- Implemented **Firestore authentication, Zoom integration, and payment gateway services,** streamlining online class scheduling and fee processing while improving user engagement and transaction handling **efficiency by 30%.**

CORE COMPETENCIES

Programming & Development
